

Insert model

Lay on model

Most important features:

- Available in all dimensions and shapes
- Insert model or lay on model possible
- Outstanding soft rubber grip toplayer from high quality
- Supplied with diffusion tight Ø 15mm water hose
- 130 Watt/m²
- Even temperature distribution
- Water- and diffusion tight, no energy loss over the years
- Plastic feels warm naturally
- Perfect insulation on the bottom because of a stagnant layer of air
- Plastic keeps warm for a longer time when heating is stopped
- Fits in almost every floor type
- Easy to mount
- Heavy weight heating elements (+ 30KG/m²) designed for long life

Verba floorheating elements 35 mm thick are available in all sizes because we make everything in-house. We can also change the thickness and the length of the hose. The top panel is available with a studded or grit finish, providing good grip for the piglets. The heating elements heat up evenly. Easy to fit with quick couplings. Supporting edges produced to your specifications. Some regular sizes are shown below. Contact us for non-standard sizes, corner models etc. Verba also supplies convex floor elements for use in piglet houses. Want more information? We'd be happy to visit you in person. Guarantee: 7 Years on construction- and material faults.

Options: Chamfered edge with lay on model, supporting edges, Z-profile, extra diffusion tight hose, hose connections, piglet cover

Option: Chamfered edge with lay on model
